NOTE 1: Labor Hours (LH)

At the time of award the number of labor hours listed in the Base and Option Periods will reflect the Level of Effort provided in Section H, NAVSEA 5252.216-9122 Level of Effort clause as proposed by the successful offeror.

NOTE 2: SURGE

If the Government determines that an increase to the level of effort is required, the government reserves the right to exercise a "Surge Option" CLIN. This work will be in accordance with the Performance Work Statement. The Contracting Officer will provide written notice to the contractor at least 30 calendar days prior to exercising a "Surge Option" CLIN.

NOTE 3: Option Items

Option Item to which the OPTION clause in SECTION I applies and which is to be supplied only if and to the extent said Option is exercised.

B.1 USE WHOLE DOLLARS ONLY

All proposals shall be rounded to the nearest dollar.

B.2 TYPE OF ORDER

This is a term (Level of Effort) order.

Labor CLINs are for cost plus fixed fee.

ODC CLINs are for cost only, fee is excluded.

B.3 ADDITIONAL CLINS

Additional CLINs/SLINs may be unilaterally created by the Contracting Officer during the performance of this Task Order to accommodate the multiple types of funds that may be used under this Order. These modifications will not change the overall level of effort, estimated cost or fee of the task order.

B.4 FEE RATE

The following table is to be completed by offeror and reflects the hourly rate to be billed.

Period	Fixed Fee \$ Amount	# Man-hours	Rate (Fee per
Base			
SURGE			
Option 1			
SURGE			
Option 2			
SURGE			

MAXIMUM Fee Rate

Contractor compliance with the maximum fee rate is applicable at the time of task order award and is based on the ratio of fixed fee to the estimated cost. A proposed fee that is higher than the maximum fee rate shall render the contractor's proposal unacceptable. Fee becomes a fixed dollar amount at the time of task order award and is subject to the provision of the Level of Effort clause of the contract and paragraph B.5 below. The maximum fee rate shall flow down to all subcontractors/consultants included as part of your (the Prime) proposal. The maximum fee rate is not applicable to actual performance of the task order.

B.5

If the total level of effort for each period specified in Section H, 5252.216-9122 LEVEL OF EFFORT - ALTERNATE 1 (MAY 2010) is not provided by the Contractor during the period of this order, the Contracting Officer, at its sole discretion, shall finalize fee based on the percent of hours provided in relation to the fixed fee. For example, if 90% of the hours were provided, the contractor is entitled to 90% of the

fixed fee.

The above fee calculation applies to all periods regardless of the level of funding. This task order will be incrementally funded and budgetary constraints may prevent full funding of all periods. The process for finalizing the fixed fee is the same for both fully funded periods and periods funded at less than the estimated total cost-plus-fixed-fee.

HQ B-2-0004 EXPEDITING CONTRACT CLOSEOUT (NAVSEA) (DEC 1995)

(a) As part of the negotiated fixed price or total estimated amount of this contract, both the Government and the Contractor have agreed to waive any entitlement that otherwise might accrue to either party in any residual dollar amount of \$500 or less at the time of final contract closeout. The term "residual dollar amount" shall include all money that would otherwise be owed to either party at the end of the contract, except that, amounts connected in any way with taxation, allegations of fraud and/or antitrust violations shall be excluded. For purposes of determining residual dollar amounts, offsets of money owed by one party against money that would otherwise be paid by that party may be considered to the extent permitted by law.

(b) This agreement to waive entitlement to residual dollar amounts has been considered by both parties. It is agreed that the administrative costs for either party associated with collecting such small dollar amounts could exceed the amount to be recovered.

HQ B-2-0015 PAYMENTS OF FEE(S) (LEVEL OF EFFORT – ALTERNATE 1) (NAVSEA) (MAY 2010)

(a) For purposes of this contract, "fee" means "target fee" in cost-plus-incentive-fee type contracts, "base fee" in cost-plus-award-fee type contracts, or "fixed fee" in cost-plus-fixed-fee type contracts for level of effort type contracts.

(b) The Government shall make payments to the Contractor, subject to and in accordance with the clause in this contract entitled "FIXED FEE" (FAR 52.216-8) or "INCENTIVE FEE", (FAR 52.216-10), as applicable. Such payments shall be submitted by and payable to the Contractor pursuant to the clause of this contract entitled "ALLOWABLE COST AND PAYMENT" (FAR 52.216-7), subject to the withholding terms and conditions of the "FIXED FEE" or "INCENTIVE FEE" clause, as applicable, and shall be paid fee

HQ B-2-0020 TRAVEL COSTS - ALTERNATE I (NAVSEA) (DEC 2005)

(a) Except as otherwise provided herein, the Contractor shall be reimbursed for its reasonable actual travel costs in accordance with FAR 31.205-46. The costs to be reimbursed shall be those costs accepted by the cognizant DCAA.

(b) Reimbursable travel costs include only that travel performed from the Contractor's facility to the worksite, in and around the worksite, and from the worksite to the Contractor's facility.

(c) Relocation costs and travel costs incident to relocation are allowable to the extent provided in FAR 31.205-35; however, Contracting Officer approval shall be required prior to incurring relocation expenses and travel costs incident to relocation.

(d) The Contractor shall not be reimbursed for the following daily local travel costs:

(i) travel at U.S. Military Installations where Government transportation is available,

(ii) travel performed for personal convenience/errands, including commuting to and from work, and

(iii) travel costs incurred in the replacement of personnel when such replacement is accomplished for the Contractor's or employee's convenience.

SECTION C DESCRIPTIONS AND SPECIFICATIONS

Enterprise Configuration Management Performance Work Statement

C.1 PERFORMANCE WORK STATEMENT

The Contractor shall provide Configuration and Data Management (CDM) support to U.S. Government and Department of Defense (DoD) efforts assigned to the W50 Systems Certification and Fleet Operations Division at the Naval Surface Warfare Center Dahlgren Division (NSWCDD). In addition to leading traditional Navy Configuration Management (CM) programs, W50 provides expertise in developing CM programs for non-traditional acquisition strategies for Navy and Marine Corp programs. The scope of this Statement of Work (SOW) includes the application of CM to hardware and software systems; combat systems; system of systems; emerging capabilities; and development and implementation of CM policy. It includes the management of government and commercially developed hardware and software configurations and supporting documentation, and supporting process automation and tools in every phase of the acquisition life cycle. CM processes and data must support systems engineering and development activities, and provide the configuration data required for logistics support and sustainment activities in order to increase operational readiness and minimize life cycle costs. Programs currently supported include, but are not limited to, Aegis Combat System (ACS) including Aegis Modernization, Littoral Combat Ship (LCS), Zumwalt Class DDG-1000, Joint Counter Radio Controlled Improvised Electronic Warfare (JCREW), Marine Corp Systems Command (MARCORSYSCOM), Ship Self Defense System (SSDS), Cooperative Engagement Capability (CEC), Objective and Product Line Architecture, Common Aviation Command and Control System (CAC2S), Ground/Air Task Oriented Radar (G/ATOR), Common Display System, and Coast Guard. While some of these programs are fielded to operational forces, and U.S. and foreign ships, others are in different phases of the acquisition process. For the Aegis program, Contractor on-site support is required, but not limited to, NSWCDD, Dahlgren, VA; Bath, ME; Pascagoula, MS; and Moorestown, NJ.

C.2 CONFIGURATION PLANNING

The Contractor shall analyze specific needs required for each Program and determine appropriate and effective CM implementation strategies that support requirements definition, systems engineering, development and integration, Test & Evaluation (T&E), production and sustainment and operations. Process interaction includes In-Service Engineering Agents (ISEAs), shipyards, Software Support Activities, and Design Agents. The Contractor shall develop policies, procedures, guidance, and business practices for the introduction and maintenance of Commercial Items and Non-Developmental Items (CI/NDI) and technology refresh. The Contractor shall develop metrics to improve processes and effectiveness of the CM Program. The Contractor shall assess the effectiveness of CM implementation and performance with performance metrics. (CDRL A006)

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 46 of 246	FINAL
----------------------------------	---	----------------------------------	-------------------	-------

C.2.1 The Contractor shall develop a CM program that supports the PEO IWS Enterprise Configuration Control Process in accordance with PEOIWSINST 4130.1, as applicable.

C.2.2 The Contractor shall develop a CM program that supports the MARCORSSYSCOM Order, 4130.1, CM Policy, as applicable.

C.2.3 The Contractor shall implement continuous improvement initiatives to ensure effective execution of the CM program through assessments of tasks, processes, procedures and utilization of tools. The Contractor shall participate in government rapid improvement events and assist in identifying areas of improvement and documenting revised processes. (CDRL A006)

C.2.4 The Contractor shall generate and/or update CM Plans, charters, and standard operating procedures that describe how CM is accomplished and demonstrate consistency between product definition, product configuration, and CM records. The Contractor shall review Program Management plans and technical documentation and provide CM assessments. The Contractor shall develop a CM Program Project Plan in support of the program plan and integrated master schedule. (CDRL A006)

C.2.5 The Contractor shall participate in technical reviews, integrated product teams, working groups, and conferences and represent CM efforts and/or discussions, including discussions relating to safety change request issues.

C.2.6 The Contractor shall generate and present technical briefs in support of the execution of the CM program, including preparing safety briefs in support of safety review boards and panels. (CDRL A005)

C.3 CONFIGURATION IDENTIFICATION

C.3.1 The Contractor shall provide support in establishing configuration identification nomenclature for hardware and software, including CI/NDI, firmware, and interfaces. The Contractor shall track configuration items to the level necessary to fully support systems engineering, logistics, interface management, and planning functions. The Contractor shall compile system breakdown information and establish configurations for each baseline prior to initialization. The Contractor shall conduct analyses of all configuration items to verify and validate associated nomenclature and part numbers.

C.3.2 The Contractor shall establish nomenclature for baselines, versioning, documentation numbering, change proposal numbering, and item unique identification.

C.3.3 The Contractor shall use the Joint Electronic Type Designator Automated System (JETDAS) and/or CM Reference Materials (CMRM) in the analysis and verification of nomenclature. The Contractor shall interface and/or consult with the originator of the Nomenclature Assignment Request (NAR) and the organization's approval authority to ensure all notional, experimental, approved, and unapproved nomenclature is correctly identified.

C.3.4 The Contractor shall use the Defense Logistics Information Service (DLIS) for part number

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 47 of 246	FINAL

verification. Liaison with the responsible Participating Acquisition Resource Manager (PARM) and In-Service Engineering Agent for the hardware and software which comprise the system shall be established to ensure a timely and accurate exchange of information relevant to the assignment of part numbers.

C.3.5 The Contractor shall establish and maintain baselines throughout the entire life cycle. The baseline shall be initiated when the first notional configuration is identified and maintained for the life cycle of the configuration item. The baseline shall provide historical records of the evolution, as well as the current configuration; identify the change documents associated with each baseline; maintain data related to the applicability, approval status and impact of each change. Baseline definitions shall be provided to managers as input to technical decisions and at key program milestones. (CDRL A003, A006, A010)

C.4 CONFIGURATION CONTROL

C.4.1 The Contractor shall develop and/or review change proposals, including but not limited to Engineering Change Proposals (ECPs), Ship Change Documents (SCDs), Specification Change Notices (SCNs), Change Requests, Software Trouble Reports, Interface Change Requests, and Advanced Concepts. The Contractor shall perform an administrative review of each change, and analyze proposed changes for classification of change and impacts to identification/re-identification of affected hardware and software. This assessment shall include, but not be limited to, accuracy of nomenclature, determination of impact to next higher assembly, an evaluation for interchangeability, identification or relationships, including conjunctivity, CI/NDI impact, and provide an overall assessment of compliance with CM criteria. The contractor shall review change proposals and change requests for safety impact. (CDRL A006, A008)

C.4.2 The Contractor shall establish processes to support Configuration Control Boards (CCBs) at the local, system, system of systems and enterprise level, including identification of change authority and integration of the change process with external processes. (CDRL A007)

C.4.3 The Contractor shall provide support for review boards, working groups and change boards by distributing change packages, developing and distributing agendas, minutes and action items, and preparing final packages for CCB signature. The Contractor shall support resolving action items in a timely manner. The Contractor shall prepare and/or consolidate technical assessments in support of the change boards. Standard operating procedures shall be developed for all activities associated with the execution of the CCB and review panels/boards. (CDRL A004, A006)

C.4.4 The Contractor shall analyze data collected from authoritative sources relating to system hardware, software, and firmware for correlation and applicability to baselines, ship classes, warfare areas, and program assets. The Contractor shall analyze alteration documents to determine system impact and maintain the current and future configuration, availability, and installation status of the alterations. (CDRL A006)

C.4.5 The Contractor shall integrate the Navy Modernization Process within the CM Program,

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 48 of 246	FINAL
----------------------------------	---	----------------------------------	-------------------	-------

as required. The Contractor shall generate, update, and/or process Ship Change Documents within the NAVSEA Entitled Process for all phases. (CDRL A006)

C.4.6 The Contractor shall establish and implement processes to support Test and Evaluation (T&E) efforts within the program. This includes establishing an environment to capture and track observations, transition observations into hardware and/or software change requests and integrate the T&E efforts into change control processes for the program. The Contractor shall participate in technical discussions and assist in resolving issues relative to test and evaluation of system software. (CDRL A006)

C.4.7 For shipbuilding programs, the Contractor shall support identification and implementation of changes at the shipyards. The Contractor shall support established processes and provide recommendations for improved efficiencies across the program. For the Aegis Program, the Contractor shall support the CM processes of the Ship Test Change Review Board ensuring accuracy of change applicability within the status accounting tool, and identification and resolution of CM related issues. The contractor shall perform analysis, monitoring, maintenance, and reporting to ensure configuration control of all systems under test. (CDRL A003, A004, A006)

C.5 CONFIGURATION STATUS ACCOUNTING

C.5.1 The Contractor shall maintain a configuration status accounting database in support of the CM programs. The Contractor shall develop and implement requirements and metrics for accurate status accounting. (CDRL A006)

C.5.1.1 For the Aegis Program, the Contractor shall utilize the Advanced Configuration Control and Engineering Status System (ACCESS) for PEO IWS 1 activities and evaluate the capabilities of ACCESS against new program requirements.

C.5.1.2 For the Aegis Program, the Contractor shall support the ACCESS/Status Tracking and Reporting System (STARSYS) Interface and other systems as applicable for the transfer of data and resolution of data discrepancies in accordance with standard operating procedures.

C.5.1.3 The Contractor shall maintain other databases including the IBM Rational suite of tools to track software configurations.

C.5.2 The Contractor shall manage hardware and software baselines with all supporting change documentation. The Contractor shall develop and maintain parts indentured breakdown configurations. The Contractor shall compile system breakdown information and establish initial configuration for each baseline, prior to initialization. The Contractor shall assist in the maintenance of the configuration baseline throughout the lifecycle. The Contractor shall track, at a minimum, approval status, applicability to the system, nomenclature or re-identification impact, conjunctivity with other changes, installation status and CM issues. (CDRL A003)

C.5.3 The Contractor shall produce and deliver agendas, minutes, action items, and/or reports on a regular basis in support of meetings and requests. The Contractor shall develop and deliver

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 49 of 246	FINAL

metric reporting on change board activity. (CDRL A003, A004)

C.5.4 The Contractor shall provide status accounting reports to the systems engineering community to include, but not limited to, Alteration status, Engineering Change Proposals, Ship Change Documents, Interface Change Requests, Weapon Specification, software release information, software versions in use, open change requests, and open lineage reports. The contractor shall provide status accounting of safety assessments for software change requests determined to have safety impact. (CDRL A003)

C.5.5 The Contractor shall perform technical verification, research, and coordination with design agents, shipbuilders and vendors to ensure that the information contained in the government approved databases (e.g. ACCESS, Configuration Data Management – Open Architecture (CDMD-OA)) is accurate, complete and reflects the configuration of each element or ship's designated baseline. (CDRL A003, A006)

C.5.6 The Contractor shall perform analysis and provide reporting to systems engineering regarding the deltas between actual In-Service configuration and proposed engineering baseline changes for ship(s) targeted for upgrade. The Contractor shall provide acquisition baselines in support of procurement documentation and shipbuilding contract schedules. (CDRL A003, A006)

C.5.7 The Contractor shall work with systems engineering and Software (Computer Program) baseline management to identify high visibility items (e.g., computer program/software sensitive equipment, firmware, high failure rate items, etc.) in the working design baseline and monitor and report on changes which might have an impact on these items. The Contractor shall prepare periodic reports designed to keep managers up-to-date on software release information, software versions currently in use and change requests to be included in future versions/updates of software. The Contractor shall provide a report of software sensitive changes for associated certification panels. (CDRL A003, A006)

C.5.8 The Contractor shall monitor System Engineering Agents/System Integration Agents processes and other authoritative sources (i.e., Regional Maintenance and Checkout (RMMCO) and Configuration Data Management-Open Architecture) to ensure the configuration is updated to include the installation of alterations and replacements of equipment.

C.5.9 The Contractor shall record, monitor, update and maintain the Navy approved contractual baseline (GFE Contract Baseline) for each Aegis ship under construction. This baseline shall be prepared 24 months prior to Aegis Light Off utilizing Schedule A of the associated Shipbuilding contract, and maintained by continual incorporation of changes (Level III and IV Engineering Change Proposals) approved by NAVSEA or SUPSHIP. The Contractor shall document and report all discrepancies between the GFE Contract Baseline and As-Received Baseline. (CDRL A003, A006)

C.5.10 The Contractor shall attend meetings and provide configuration status information, including the delivery status of associated configuration items to the end user, and change requests with safety impact. (A003)

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 50 of 246	FINAL
----------------------------------	---	----------------------------------	-------------------	-------

C.5.11 The Contractor shall capture, track, and audit test site configuration items for each test event. (CDRL A003)

C.5.12 The contractor shall ensure safety status information for all open change requests is provided for entry into the Hazard Tracking Database. (CDRL A003)

C.5.13 The contractor shall maintain safety program schedules in MS Project. (CDRL A003)

C.5.14 The Contractor shall enter and/or produce data in a manner where data can be imported into other databases. The Contractor shall access other Contractor databases and download or export CM data. (CDRL A003)

C.6 CONFIGURATION AUDITS

C.6.1 The Contractor shall participate in functional and physical configuration audits including generating audit plans and reports, capturing and tracking discrepancies, and working discrepancies to closure. (CDRL A006, A009)

C.6.2 The Contractor shall validate configuration reporting of hardware and software by conducting ship and/or site audits and reporting and resolving discrepancies. The Contractor shall utilize a government barcode scanning system to audit configuration items for programs with item unique identification tags. For the Aegis Program, these audits shall be conducted at, but not limited to, the Backfit Program Test Facility during integration testing and after upgrades are implemented. (CDRL A006)

C.6.3 The Contractor shall conduct audits of the total equipment suite tested at system integration sites (e.g. Production Test Center (PTC), Integration sites). The Contractor shall download the baseline from the government database, utilize the government bar-code system to conduct the audit, resolve discrepancies, and upload verified data to the government approved database. (CDRL A003)

C.6.4 For shipbuilding programs, the Contractor shall inspect all equipment not audited during receipt at the applicable shipyard to ensure all applicable CM information is accurately tracked in a government database (as-ordered vs. as-received). (CDRL A003)

C.6.5 The Contractor shall conduct a post delivery availability audit to verify that the equipment was correctly installed in the compartment location specified. The Contractor shall capture discrepancies in the government database and update alteration installation status. (CDRL A003)

C.6.6 For shipbuilding programs, the Contractor shall conduct a shipboard audit to verify change activity since ship custody transfer and/or post shakedown availability (alteration installations, equipment swap outs).

C.6.7 The Contractor shall support Independent Logistics Assessments for CM and computer resource supportability. (CDRL A003)

C.7 SYSTEMS REQUIREMENTS MANAGEMENT

C.7.1 The Contractor shall provide support in the development and generation of requirements documentation. The Contractor shall develop understanding and familiarity with requirements tracing tools to ensure optimal performance for requirements tracing. Specifically, the Contractor shall have a strong knowledge of Dynamic Object Oriented Requirements System (DOORS) exchange process information with programs involved in requirements management and participate in sessions to advance capabilities of current and future tools.

C.7.2 The Contractor shall provide technical and documentation assistance in the review of system and sub-system documentation to ensure requirements traceability, verification and compliance. The Contractor shall assist in technical reviews, distribution of pertinent data, maintenance of program schedules, collection of comments and review of data associated with the systems requirements, verification plans, procedures, and reports. Results of the trace analysis, compliance issue recording, status accounting, meeting reports and presentation material shall be provided. (CDRL A006)

C.7.3 The Contractor shall perform requirements traceability, change impact and compliance analysis assessments. The Contractor shall participate in working groups to address requirements development. (CDRL A006)

C.7.4 The Contractor shall maintain a requirements and compliance database utilizing the DOORS tool. Requirements shall be traced to lower level specifications and interface documents to ensure design meets the specified requirements. The Contractor shall develop reports from the tracing tool to include specific event requirements, traceability, verification and/or validation, status, metrics, and element association. (CDRL A006)

C.7.5 The Contractor shall participate in defining and documenting a process for capturing and controlling requirements within a requirement tracing tool like DOORS, defining attributes to uniquely identify requirements within the tool, updating the tool with approved changes and generating reports in support of technical reviews and change control. The Contractor shall develop requirements for databases and other tools needed to support a CM program. (CDRL A006, A007)

C.8 TOOLS REQUIREMENTS MANAGEMENT

C.8.1 The Contractor shall identify, evaluate, recommend, and implement tools required to support the CM Program. The Contractor shall tailor tool or reporting to support program requirements, including consideration for data exchange with other databases and/or tools. The Contractor shall develop configuration status accounting databases using government-approved database software. The Contractor shall provide programming support to develop structures, forms, reports, and predefined queries for databases. The Contractor shall develop web interfaces into the configuration status accounting database. The Contractor shall develop interfaces between legacy status accounting systems and newly acquired Commercial-Off-The-Shelf (COTS) tools that perform similar functions. The Contractor shall document

system design in Database Design Documentation and generate standard operating procedures to document information management processes. (CDRL A006, A007)

C.8.2 The Contractor shall provide recommendations for and support the development of applications and enhancements to provide improved accessibility to the configuration information/data through web sites/applications. The Contractor shall provide recommendations for providing needed information to the customers through a state of the art digital environment through existing or planned networks. (CDRL A006)

C.8.3 The Contractor shall generate and maintain quality assurance plans for information systems; perform quality review/analysis of information systems and procedures and identify areas for improvements; provide technical support for the quality control of the information contained in those systems; provide guidance and procedures for data accuracy/integrity and maintenance of data; run periodic ad hoc reports to review and validate the currency of data based on recent configuration activities. (CDRL A006)

C.8.4 The Contractor shall provide system design and functionality training for the user community. The Contractor shall apply the business and technical knowledge acquired during the development process to enhance the training curriculum. (CDRL A003, A006)

C.8.5 The Contractor shall provide support for Customer Acceptance Testing of information systems being used to support CM business processes. Test support shall require close coordination with the Information System communities to share business information, and to assist in generating plans, scenarios, procedures and data sets, and conducting tests to ensure adequate business validation prior to production release. The Contractor shall generate test plans to address the total scope of the application/release and affected regression areas. The Contractor shall develop scenarios designed to represent the full scope of the test from a business perspective. The Contractor shall develop and maintain a library of supporting test scripts/procedures. The Contractor shall identify and load test data to support the test scripts/procedures. The Contractor shall support the planning, set up, conduct, evaluation, and follow-up of all test exercises. This includes, but is not limited to, contacting test team members, scheduling conference rooms, setting up test environments, configuring equipment and customer accounts, and participating in or conducting test reviews. (CDRL A006)

C.8.6 The Contractor shall provide analytical support for the continued development and enhancement of the government approved database and provide technical support for the review of database support documentation. The Contractor shall review and analyze the database to evaluate and determine its ability to meet the user requirements and to satisfy business functions and requirements. The Contractor shall attend and provide supporting documentation for tools-related change board meetings. The Contractor shall perform analyses, assess impacts, and provide recommendations as requested; provide input relative to problems associated with daily operation of the database and explanation of proposed design enhancements; assist in the preparation and delivery of customer service requests to accomplish this task; develop and maintain standard operating procedures; develop and present training materials for database releases, CM processes, and support tools. (CDRL A006)

C.9 CONFIGURATION DATA MANAGEMENT

C.9.1 The Contractor shall provide support in the development of program level documents by providing expertise to define a document review process and utilize an electronic repository such as SharePoint and/or ViewNet to adjudicate technical comments and track action items. The Contractor shall provide support to distribute documentation for review, collect and consolidate comments, participate in the adjudication of the comments, maintain status of all comments, and distribute the revised documentation. (CDRL A004, A006)

C.9.2 The Contractor shall coordinate the review of CDRLs from Design Agents and provide reporting in support of the CDRL review. (CDRL A006)

C.9.2.1 For the Aegis Program, the Contractor shall support the Software CM (SCM) Specification Change Review, Implementation, and Baseline Evaluation (SCRIBE) by coordinating all notifications related to SCRIBE reviews and change pages, manage and/or update all comments using ViewNet tool, act as point of contact for the Navy Technical Representative and NSWCCD engineers, provide monthly metrics, charts and baseline specific data via the SCM Netbook; make user recommendation for ViewNet improvements. (CDRL A004, A006)

C.9.2.2 The Contractor shall utilize ViewNet and download a list of documents scheduled for review by the SCRIBE and forward to appropriate reviewers on a regular basis. (CDRL A004)

C.9.3 The Contractor shall maintain a central electronic file system of all technical data associated with a program and documentation associated with the CM program (Standard Operating Procedures, Work Instructions, etc) utilizing a tool that provides automated receipt, distribution and filing of data. The Contractor shall define and implement an access/permission strategy and maintain access control lists.

C.9.4 The Contractor shall provide technical data to the appropriate offices for use in the preparation of procurement documentation and shipbuilding contract Schedules for Government Furnished Equipment. (CDRL A006)

C.9.5 The Contractor shall maintain the status of drawings in a government approved database that is web-accessible and obtain engineering release and change package status on a daily basis in order to support engineering reviews. The Contractor shall review drawing changes and drawings for accuracy and post changes and drawings to the appropriate repository. (CDRL A003)

C.9.6 The Contractor shall maintain the master file of program specifications generated by the government. The specification may be classified or unclassified. The Contractor shall maintain a log for all classified documentation. (CDRL A003)

C.9.7 The contractor shall provide data management and administrative function for the NSWCCD Aegis Systems Engineering Programs and Fleet Support Group.

C.9.7.1 The contractor shall implement a library database and filing system in government workspace to receive, track status and location, duplicate, distribute, and store technical data.

The database shall include a checkout system that includes tracking of technical documentation for library files, war rooms, or other permanent storage areas. The database shall be designed with a user-friendly interface to facilitate access to library files, scanned documents, graphic presentations, and other electronically stored data. The contractor shall audit the library monthly to ensure technical documentation is being acted upon within prescribed time limits. The contractor shall assist personnel in logging documents into and out of the library storage. The contractor shall deliver status accounting report for all library activity.

C.9.7.2 The contractor shall maintain the master version of NSWCDD presentations and assemble or revise presentation displays for the Aegis Systems Engineering Programs and Fleet Support group.

C.9.7.3 The contractor shall provide administrative support for scheduling and coordinating meetings and events, prepare minutes, action item lists, and attendance lists. The contractor shall provide reproduction and distribution support for technical documentation and presentation material.

C.9.7.4 The contractor shall establish and maintain a consolidated scheduling system for dates of interest including milestones, baseline schedules, meetings, action items, and other data.

C.9.7.5 The contractor shall provide NSWCDD Fleet Status and Response room (located in building 1500) technical and operations support to include the following:

C.9.7.5.1 The contractor shall assist in developing and processing naval message traffic required to support Aegis/Aegis Ballistic Missile Defense (ABMD) computer program installations, audits, and technical assistance requests. The contractor shall review all incoming naval message traffic to identify issues requiring technical support from NSWCDD Aegis/ABMD organizations, notify the organizations, and track the status of the issue resolution via the Fleet Support Database. The contractor shall coordinate and participate in Aegis/ABMD technical assistance sessions via distance support methods.

C.9.7.5.2 The contractor shall act as liaison with NSWCDD Communications, security, and information awareness organizations to ensure the electronic communications networks required in the Fleet Status and Response room are compliant with applicable instructions and procedures.

C.9.7.5.3 The contractor shall develop, update, and maintain the information contained within the Fleet Status and Response room's website. The contractor shall assist in providing metrics in response to periodic reports or data calls as required.

C.10 RELEASE MANAGEMENT

C.10.1 The Contractor shall prepare builds of new software releases to test facilities and the end user. The Contractor shall maintain a separate quality assurance (QA) area in the software development environment to be used as a repository for approved software configuration items.

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 55 of 246	FINAL
----------------------------------	---	----------------------------------	-------------------	-------

The Contractor shall copy approved files to the QA area and shall compile and link files to create executable load files. In this manner, the Contractor shall ensure the reproducibility of software builds tested by engineers/programmers during unit testing of the software. The Contractor shall use executable files in the QA directory and master media created from the QA directory to reproduce executable load files for delivery to end user. The Contractor shall prepare the site data Software Version Document (SVD) for delivery for each specific platform or end user. The Contractor shall load cycle each piece of media produced to ensure that the files contained in it will load and execute in a host system prior to release. The Contractor shall assemble software delivery packages and ensure that the appropriate documents (SVD, briefs) are included in the package and all media is labeled and marked. The Contractor shall ensure appropriate transmittals and shipping forms are included with the delivery package, and proper addresses and points of contacts are included on each form. The Contractor shall travel to ships/sites and install software. The Contractor shall maintain status accounting records of software delivered to ships/sites to include computer system configuration item identifiers, delivery dates, media return dates, and other pertinent status information. The Contractor shall document build product and release processing in standard operating procedures. (CDRL A003, A007)

C.10.2 The Contractor shall maintain logs of receipts, transmittals, documentation records, problem reports and change documents. (CDRL A003)

C.10.2.1 The Contractor shall use the ACCESS database to maintain logs of receipts, transmittals, documentation records, problem reports and change documents for programs that maintain configuration status accounting data in ACCESS.

C.10.3 The Contractor shall conduct a physical audit of computer program media of tapes, removable interchangeable media modules, compact disks, optical disks, etc. (CDRL A003)

C.10.4 The Contractor shall support the transfer of operational programs and associated documentation to the ships at ship custody transfer. (CDRL A003)

C.10.5 The Contractor shall barcode computer program/software media and documentation upon receipt.

C.10.6 The Contractor shall purge all obsolete media from the media library when software is no longer used by end user. (CDRL A003)

C.11 OTHER RELATED TASKING

C.11.1 The Contractor shall establish, implement, and maintain a CM training and certification program for their employees to ensure sufficient knowledge and skills are developed, sustained, and applicable to implementing CM processes. The Contractor shall have the necessary skills and knowledge to perform the assigned training activities. Training needs shall be periodically assessed and evaluated for consistency and relevance to program needs. (CDRL A006, A007)

C.11.2 The Contractor shall be on-call to support, coordination, and/or attend various System CM and SCM meetings given 24-hour notice.

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 56 of 246	FINAL
----------------------------------	---	----------------------------------	-------------------	-------

C.11.3 The Contractor shall develop and/or present technical briefs and training material. The contractor shall produce presentation books in support of safety review boards and panels. (CDRL A005, A006)

C.11.4 The Contractor shall provide technical editing and word processing and graphics support in the preparation technical reports, briefs, publications and other document types.

C.11.5 The Contractor shall provide on-site CM support to applicable Navy Technical Representative Offices (e.g. Moorestown, NJ) for all tasking identified in this SOW.

C.11.6 The Contractor shall provide on-site CM support to applicable SUPSHIP and Test Team offices (e.g. Pascagoula, MS and Bath, ME).

C.12 NON-DISCLOSURE AGREEMENTS

NDAs may be utilized to allow for access to company sensitive/proprietary data. For tasks requiring NDAs the contractor shall obtain appropriate agreements for all of their employees that are associated with the task requiring such an agreement. The Contractor will be required to sign a non-disclosure agreement with, at a minimum, Lockheed Martin Maritime and Sensor Systems/Moorestown, NJ; General Dynamics, Pittsfield, MA; Northrop Grumman, Bethpage, NY; and Raytheon, Tewksbury, MA.

Contractor personnel may be required, from time to time, to sign non-disclosure statements as applicable to specific tasking. The COR will notify the contractor of the number and type of personnel that will need to sign the Non-Disclosure agreements. The signed Non-Disclosure Agreements shall be executed prior to accessing data or providing support for information that is considered business or program sensitive and returned to the COR for endorsement and retention.

C.13 PROGRESS REPORTS

C.13.1 The Contractor shall provide a monthly progress report electronically. This report shall reflect both prime and subcontractor data as appropriate. While contractor format is acceptable, with Government's approval, the following information, at a minimum, shall appear in each progress report: (CDRL A001)

Section I - Contract Progress Summary

Contract title, contract number, period of performance.

Contract Modifications - list modifications by number, include date issued and description.

Open Correspondence - include any correspondence that requires either Government or Contractor action.

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 57 of 246	FINAL
----------------------------------	---	----------------------------------	-------------------	-------

Problem Areas/Comments – identify any existing problems or concerns and identify any problems or concerns, which have arisen since the last progress report.

Contract Data Deliveries - include title, CDRL number, contracted due date, date delivered (if completed), Government point of contact, Contractor point of contact and description of product.

Government Furnished Equipment List, applicable Work Element (WE), date provided, and date returned.

Section II - Contract Level Financial and Labor Reports General

The Contractor shall provide the information necessary to completely support:

NSWCDD's Contractor Expense Reporting System (CERS) or other financial tool, reported on a monthly basis. Contractor shall enter actual funding and Level of Effort (LOE) expenditures into the CERS or other financial tool monthly.

Financial and labor projections by providing charts, graphs, and text necessary to define the planned future staffing, funding, and man-hours by category and all of this associated by WE for the fiscal year.

Section III - Individual Work Element Progress Reports

Work Element Level Financial and Labor Reports General

The Contractor shall provide Financial and Labor projections by providing charts, graphs, and text necessary to define the current and planned staffing, funding, and man-hours by category and work area for the fiscal year.

C.14.1 The contractor shall conduct an In-Process Review (IPR) quarterly with the COR, Contracting Officer, TAs and other NSWCCD personnel designated by the COR upon NSWCCD request. This review shall be documented in a report, which shall include, but is not limited to, the following:

Current and cumulative expenditures in both hours and dollars. Labor hours shall be presented by labor category. Personnel charging to the task shall be identified. An analysis shall be presented which compares proposed and actual amounts. Significant variances shall be explained.

Travel performed, including identification of element, number of days, purpose of travel, dates of travel, destination, names of travelers, and summary of results of trip CDRL A004.

C.14.2 Performance review/format:

Separate briefing for each program supported with IPR period of reporting to include accomplishments.

CDRL item status to include a listing of items delivered.

Issues with associated risk assessment.

Plan for next IPR period.

C.14.3 Minutes and action items shall be produced and distributed by the Contractor. (CDRL A004)

C.15 PLAN OF ACTIONS AND MILESTONE REQUIREMENTS

The Contractor shall develop a Plan of Actions and Milestones (POA&M) for each program. The signed POA&M shall be provided to the Technical Assistant (TA), Contracting Officer's Representative (COR), and Contract Specialist within twenty-one days after Task Order award, exercise of option, Technical Instruction issuance, and/or modification to the Technical Instruction or the issuance of a Task Order modification which affects the Level of Effort or Contract Ceilings. While Contractor format is acceptable, with Government approval, the following information, as a minimum, shall appear in each POA&M. (CDRL A002)

Date POA&M prepared (and revision number if applicable)

Work Area (number and title)

Contract and Task Order Number

POA&M Period Of Performance

Contractor Interfaces/Points Of Contact (technical area):

Task Manager (name, phone number and email)

Government Interfaces/POC:

C.19 SECURITY

The Department of Defense Contract Security Classification Specification (DD Form 254), added as an attachment, provides the security classification requirements for this order. The contractor shall obtain facility and personnel security clearances as required by the Department Industrial Security Program prior to starting to work on tasks requiring clearances. Access to classified spaces and material and generation of classified material shall be in accordance with the attached DD Form 254.

C.20 SKILLS AND TRAINING

The Contractor shall provide capable personnel with qualifications, experience levels, security clearances, and necessary licenses, certifications, and training required by Federal, State, and Local laws and regulations. Information assurance functions require certifications specified in DFARs 252.239- 7001 INFORMATION ASSURANCE CONTRACTOR TRAINING AND CERTIFICATION. Training necessary to ensure that personnel performing under this contract maintain the knowledge and skills to successfully perform the required functions is the responsibility of the Contractor. Training necessary to maintain professional certification is the responsibility of the Contractor.

C.21 NON-PERSONAL SERVICES/INHERENTLY GOVERNMENTAL FUNCTIONS

(a) The Government will neither supervise contractor employees nor control the method by which the contractor performs the required tasks. Under no circumstances shall the Government assign tasks to, or prepare work schedules for, individual contractor employees. It shall be the responsibility of the contractor to manage its employees and to guard against any actions that are of the nature of personal services or give the perception that personal services are being provided. If the contractor feels that any actions constitute, or are perceived to constitute personal services, it shall be the contractor's responsibility to notify the Contracting Officer immediately.

(b) Inherently-Governmental functions are not within the scope of this Task Order. Decisions relative to programs supported by the contractor shall be the sole responsibility of the Government. The contractor may be required to attend technical meetings for the Government; however, they are not, under any circumstances, authorized to represent the Government or give the appearance that they are doing so.

C.22 SHIPBOARD PROTOCOL

22.1 This task order will involve working onboard U.S. and/or foreign naval ships or vessels. As

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 63 of 246	FINAL
----------------------------------	---	----------------------------------	-------------------	-------

such, the Contractor is reminded of its responsibility to assure that shipboard protocol is stringently followed. Specifically, visit requests must be arranged through the Government sponsor and must be forwarded to the individual command being visited as well as to all supporting commands, such as the base, squadron, tender, etc. that the visitor must pass through to get to the ship or vessel; the Contractor is responsible for obtaining and maintaining specialized training (i.e., nuclear awareness, safety, quality control, etc.) and certification (i.e., SUBSAFE certification, etc.); personnel performing onboard U.S. Navy ships must have at least a SECRET security clearance; if not led by a government representative, the Contractor is responsible for briefing the ship/command upon arrival; and the Contractor is responsible for debriefing the ship/command upon departure to include the operational status of the equipment.

22.2 The Contractor shall ensure its personnel adhere to these requirements when performing shipboard. Compliance shall be reported in the trip report, CDRL Requirement A001.

22.2.1 All personnel working shipboard shall possess at least a SECRET security clearance.

22.2.2 All personnel, while shipboard, shall conform to the rules and regulations of the ship. It is the responsibility of the Contractor to determine the proper rules, regulations, actions, policy, and procedures.

22.2.2.1 Alarms – actual or drill

22.2.2.2 Safety – hardhats, tag-outs, safety shoes, goggles, etc. as applicable.

22.2.2.3 HAZMAT – bringing hazardous materials aboard, using hazardous materials, etc.

22.2.3 The designated team lead shall, upon arrival, brief the Commanding Officer or his/her designated representative as to the purpose of the visit and expected duration.

22.2.4 The designated team lead shall, upon departure, debrief the Commanding Officer or his/her designated representative as to the success of the work performed.

C.23 TERMINATION OF EMPLOYEES WITH NSWCDL BASE ACCESS

The contractor shall insure that all employees who have a NSWCDL badge and/or vehicle sticker turn-in the badge and remove the vehicle sticker immediately upon termination of their employment under this task order. The above requirement shall be made a part of the standard employee facility clearance procedures for all separated personnel. The contractor shall advise NSWCDL Physical Security of all changes in their contract personnel requiring NSWCDL base access.

For involuntarily separated personnel and those separated under adverse circumstances, the contractor shall notify NSWCDL Physical Security in advance of the date, time and location where the NSWCDL representative may physically remove the employee's automobile bumper sticker and retrieve the NSWCDL badge prior to the employee departing the contractor's facility. In the event the employee is separated in his or her absence, the contractor shall

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 64 of 246	FINAL
----------------------------------	---	----------------------------------	-------------------	-------

immediately notify NSWCDD Physical Security of the separation and make arrangements between the former employee and NSWCDD Physical Security for the return of the badge and removal of the sticker.

C.24 INFORMATION SECURITY AND COMPUTER SYSTEM USAGE

In accordance with U.S. Navy policy, any personnel, including the contractor, who utilizes DOD owned systems shall assume responsibility for adherence to restrictions regarding internet and e-mail usage. Navy policy prohibits racist, sexist, threatening, pornographic, personal business, subversive or politically partisan communications. All personnel, including the contractor, are accountable and must act accordingly. DOD computer systems are monitored to ensure that the use is authorized, to facilitate protection against unauthorized access, and to verify security procedures, survivability and operational security. During monitoring, information may be examined, recorded, copied, and used for authorized purposes. All information, including personal information, placed on or sent over a DOD system may be monitored. Use of a DOD system constitutes consent to monitoring. Unauthorized use may result in criminal prosecution. Evidence of unauthorized use collected during monitoring may be used as a basis for recommended administrative, criminal or adverse action.

C.25 TRAVEL REQUIREMENTS

All travel under this order must be requested of, and authorized by, the TA (information copy to the COR), in writing or by electronic mail, and must show the appropriate order number, the number of people traveling, the number of days for the trip, the reason for the travel, and any high-cost or unusual costs expected. The Contractor is not authorized to perform any travel that is not in conjunction with this order. Specific Travel requirements shall be identified in the POA&Ms.

C.26 CONTROL OF CONTRACTOR PERSONNEL

The contractor shall comply with the requirements of NAVSEA and NSWCDD instructions regarding performance in Government facilities. All persons engaged in work while on Government property shall be subject to search of their persons (no bodily search) and vehicles at any time by the Government, and shall report any known or suspected security violations to the appropriate Security Department. Assignment, transfer, and reassignment of contractor personnel shall be at the discretion of the contractor. However, when the Government directs, the contractor shall remove from contract performance any person who endangers life, property, or national security through improper conduct. All contractor personnel engaged in work while on Government property shall be subject to the Standards of Conduct contained in SECNAVINST 5370.2J.

C.27 IDENTIFICATION BADGES

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 65 of 246	FINAL
----------------------------------	---	----------------------------------	-------------------	-------

The contractor shall be required to obtain identification badges from the Government for all contractor personnel to be located on Government property. The identification badge shall be visible at all times while employees are on Government property. The contractor shall furnish all requested information required to facilitate issuance of identification badges and shall conform to applicable regulations concerning the use and possession of the badges. The contractor shall be responsible for ensuring that all identification badges issued to contractor employees are returned to the appropriate Security Office within 48 hours following completion of the Task Order, relocation or termination of an employee, and upon request by the Contracting Officer.

C.28 CONTRACTOR EXPENSE REPORTING SYSTEM (CERS)

Contractors supporting the Warfare Systems Program Office (WSPO) Code W05 shall use CERS to record funding expenditures. CERS is a browser based web application with the Integrated Budget, Planning and Execution System (IBPES) tool used by W05 for Funds Management, Procurement Allocations, Budgeting, and Out Year Planning. W05 requires expenses, consisting of labor and “Other” (i.e. travel, sub-contracts, and any other direct expenses) by invoice, in addition to an estimate of funded work performed to be reported each month. The contractor shall report all invoiced contract execution by requisition (SLIN) in the Requisition Tab for the previous month. The estimated funded work performed by WBS/TPS shall be reported in the WBS Tab to capture estimated costs to date. All reporting is due to be submitted by the 20th of each month. W05 required data shall be captured in the “Labor” and “Other” fields of CERS. W05 does not require inputs to the “Hours” or “Travel”. The “Labor” fields capture the labor expenses and the “Other” field shall capture the “ODC” expenses for SeaPort and Travel and other indirect expenses for the non-SeaPort contracts.

Contractors shall coordinate all requests for CERS training with the COR for the contract. The COR shall provide the Contractor with the WSPO CERS Procedural Document that provides instructions on how to utilize and gain access to CERS and coordinate direct requests for training with W05.

C.29 USE OF INFORMATION SYSTEM (IS) RESOURCES

Contractor Provision of IS Resources

Except in special circumstances explicitly detailed elsewhere in this document, the Contractor shall provide all IS resources needed in the performance of this contract. This includes, but is not limited to computers, software, networks, certificates, and network addresses.

Contractor Use of NSWCDD IS Resources

In the event that the contractor is required to have access to NSWCDD IS resources, the login name used for access shall conform to the NMCI login naming convention. If the contractor requires access to applications/systems that utilize client certificates for authentication, the contractor is responsible for obtaining requisite certificates from a DOD or External Certificate

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 66 of 246	FINAL
----------------------------------	---	----------------------------------	-------------------	-------

Authority.

If this contract requires that the contractor be granted access and use of NSWCDD IS resources (at any site), the IS shall be accredited for contractor use in accordance with procedures specified by the Information Assurance Office.

Connections Between NSWCDD and Contractor Facilities

If there is a requirement (specifically delineated elsewhere in this contract) for interconnection (e.g., link level or Virtual Private Network (VPN)) between any facilities and/or ISs owned or operated by the contractor and ISs owned or operated by NSWCDD, such interconnection shall take place only after approval from the NSWCDD Information Assurance Office. All such connections as well as the ISs connected thereto will be accredited in accordance with DOD policy (DODI 5200.40) by the cognizant Designated Approving Authority (DAA) and comply with the requirements of CJCSI 6211.02B regarding Memorandums of Agreement. All such connections will be made outside the appropriate NSWCDD firewall.

C.30 GOVERNMENT SPACE

Government furnished space will be provided for seven contractor employees under this task order. The space will be located in Building 1500.

HQ C-2-0002 ACCESS TO PROPRIETARY DATA OR COMPUTER SOFTWARE (NAVSEA) (JUN 1994)

(a) Performance under this contract may require that the Contractor have access to technical data, computer software, or other sensitive data of another party who asserts that such data or software is proprietary. If access to such data or software is required or to be provided, the Contractor shall enter into a written agreement with such party prior to gaining access to such data or software. The agreement shall address, at a minimum, (1) access to, and use of, the proprietary data or software exclusively for the purposes of performance of the work required by this contract, and (2) safeguards to protect such data or software from unauthorized use or disclosure for so long as the data or software remains proprietary. In addition, the agreement shall not impose any limitation upon the Government or its employees with respect to such data or software. A copy of the executed agreement shall be provided to the Contracting Officer. The Government may unilaterally modify the contract to list those third parties with which the Contractor has agreement(s).

(b) The Contractor agrees to: (1) indoctrinate its personnel who will have access to the data or software as to the restrictions under which access is granted; (2) not disclose the data or software to another party or other Contractor personnel except as authorized by the Contracting Officer; (3) not engage in any other action, venture, or employment wherein this information will be used, other than under this contract, in any manner inconsistent with the spirit and intent of this requirement; (4) not disclose the data or software to any other party, including, but not limited to, joint venturer, affiliate, successor, or assign of the Contractor; and (5) reproduce the restrictive stamp, marking, or legend on each use of the data or software whether in whole or in part.

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 67 of 246	FINAL
----------------------------------	---	----------------------------------	-------------------	-------

(c) The restrictions on use and disclosure of the data and software described above also apply to such information received from the Government through any means to which the Contractor has access in the performance of this contract that contains proprietary or other restrictive markings.

(d) The Contractor agrees that it will promptly notify the Contracting Officer of any attempt by an individual, company, or Government representative not directly involved in the effort to be performed under this contract to gain access to such proprietary information. Such notification shall include the name and organization of the individual, company, or Government representative seeking access to such information.

(e) The Contractor shall include this requirement in subcontracts of any tier which involve access to information covered by paragraph (a), substituting "subcontractor" for "Contractor" where appropriate.

(f) Compliance with this requirement is a material requirement of this contract.

(End of Text)

**HQ C-2-0011 COMPUTER SOFTWARE AND/OR COMPUTER DATABASE(S)
DELIVERED TO AND/OR RECEIVED FROM THE
GOVERNMENT (NAVSEA) (APR 2004)**

(a) The Contractor agrees to test for viruses all computer software and/or computer databases, as defined in the clause entitled "RIGHTS IN NONCOMMERCIAL COMPUTER SOFTWARE AND NONCOMMERCIAL COMPUTER SOFTWARE DOCUMENTATION" (DFARS 252.227-7014), before delivery of that computer software or computer database in whatever media and on whatever system the software is delivered. The Contractor warrants that any such computer software and/or computer database will be free of viruses when delivered.

(b) The Contractor agrees to test any computer software and/or computer database(s) received from the Government for viruses prior to use under this contract.

(c) Unless otherwise agreed in writing, any license agreement governing the use of any computer software to be delivered as a result of this contract must be paid-up and perpetual, or so nearly perpetual as to allow the use of the computer software or computer data base with the equipment for which it is obtained, or any replacement equipment, for so long as such equipment is used. Otherwise the computer software or computer database does not meet the minimum functional requirements of this contract. In the event that there is any routine to disable the computer software or computer database after the software is developed for or delivered to the Government, that routine shall not disable the computer software or computer database until at least twenty-five calendar years after the delivery date of the affected computer software or computer database to the Government.

(d) No copy protection devices or systems shall be used in any computer software or computer database delivered under this contract to restrict or limit the Government from making copies. This does not prohibit license agreements from specifying the maximum amount of copies that

can be made.

(e) Delivery by the Contractor to the Government of certain technical data and other data is now frequently required in digital form rather than as hard copy. Such delivery may cause confusion between data rights and computer software rights. It is agreed that, to the extent that any such data is computer software by virtue of its delivery in digital form, the Government will be licensed to use that digital-form data with exactly the same rights and limitations as if the data had been delivered as hard copy.

(f) Any limited rights legends or other allowed legends placed by a Contractor on technical data or other data delivered in digital form shall be digitally included on the same media as the digital-form data and must be associated with the corresponding digital-form technical data to which the legends apply to the extent possible. Such legends shall also be placed in human readable form on a visible surface of the media carrying the digital-form data as delivered, to the extent possible.

HQ C-2-0014 CONTRACTOR'S PROPOSAL (NAVSEA) (MAR 2001)

(a) Performance of this contract by the Contractor shall be conducted and performed in accordance with detailed obligations to which the Contractor committed itself in their proposal dated (to be completed at time of award) in response to NAVSEA Solicitation No. N00024-11-R-3125.

(b) The technical volume(s) of the Contractor's proposal is incorporated by reference and hereby made subject to the provisions of the "ORDER OF PRECEDENCE" (FAR 52.215-8) clause of this contract. Under the "ORDER OF PRECEDENCE" clause, the technical volume of the Contractor's proposal referenced herein is hereby designated as item (f) of the clause, following "the specification" in the order of precedence.

**HQ C-2-0037 ORGANIZATIONAL CONFLICT OF INTEREST (NAVSEA)
(JUL 2000)**

(a) "Organizational Conflict of Interest" means that because of other activities or relationships with other persons, a person is unable or potentially unable to render impartial assistance or advice to the Government, or the person's objectivity in performing the contract work is or might be otherwise impaired, or a person has an unfair competitive advantage. "Person" as used herein includes Corporations, Partnerships, Joint Ventures, and other business enterprises.

(b) The Contractor warrants that to the best of its knowledge and belief, and except as otherwise set forth in the contract, the Contractor does not have any organizational conflict of interest(s) as defined in paragraph (a).

(c) It is recognized that the effort to be performed by the Contractor under this contract may create a potential organizational conflict of interest on the instant contract or on a future acquisition. In order to avoid this potential conflict of interest, and at the same time to avoid prejudicing the best interest of the Government, the right of the Contractor to participate in future procurement of equipment and/or services that are the subject of any work under this contract shall be limited as described below in accordance with the requirements of FAR 9.5.

(d) (1) The Contractor agrees that it shall not release, disclose, or use in any way that would permit or result in disclosure to any party outside the Government any information provided to the Contractor by the Government during or as a result of performance of this contract. Such information includes, but is not limited to, information submitted to the Government on a confidential basis by other persons. Further, the prohibition against release of Government provided information extends to cover such information whether or not in its original form, e.g., where the information has been included in Contractor generated work or where it is discernible from materials incorporating or based upon such information. This prohibition shall not expire after a given period of time.

(2) The Contractor agrees that it shall not release, disclose, or use in any way that would permit or result in disclosure to any party outside the Government any information generated or derived during or as a result of performance of this contract. This prohibition shall expire after a period of three years after completion of performance of this contract.

(3) The prohibitions contained in subparagraphs (d)(1) and (d)(2) shall apply with equal force to any affiliate of the Contractor, any subcontractor, consultant, or employee of the Contractor, any joint venture involving the Contractor, any entity into or with which it may

----------------------------------	---	----------------------------------	-------------------	-------

merge or affiliate, or any successor or assign of the Contractor. The terms of paragraph (f) of this Special Contract Requirement relating to notification shall apply to any release of information in contravention of this paragraph (d).

(e) The Contractor further agrees that, during the performance of this contract and for a period of three years after completion of performance of this contract, the Contractor, any affiliate of the Contractor, any subcontractor, consultant, or employee of the Contractor, any joint venture involving the Contractor, any entity into or with which it may subsequently merge or affiliate, or any other successor or assign of the Contractor, shall not furnish to the United States Government, either as a prime contractor or as a subcontractor, or as a consultant to a prime contractor or subcontractor, any system, component or services which is the subject of the work to be performed under this contract. This exclusion does not apply to any recompetition for those systems, components or services furnished pursuant to this contract. As provided in FAR 9.505-2, if the Government procures the system, component, or services on the basis of work statements growing out of the effort performed under this contract, from a source other than the contractor, subcontractor, affiliate, or assign of either, during the course of performance of this contract or before the three year period following completion of this contract has lapsed, the Contractor may, with the authorization of the cognizant Contracting Officer, participate in a subsequent procurement for the same system, component, or service. In other words, the Contractor may be authorized to compete for procurement(s) for systems, components or services subsequent to an intervening procurement.

(f) The Contractor agrees that, if after award, it discovers an actual or potential organizational conflict of interest, it shall make immediate and full disclosure in writing to the Contracting Officer. The notification shall include a description of the actual or potential organizational conflict of interest, a description of the action which the Contractor has taken or proposes to take to avoid, mitigate, or neutralize the conflict, and any other relevant information that would assist the Contracting Officer in making a determination on this matter. Notwithstanding this notification, the Government may terminate the contract for the convenience of the Government if determined to be in the best interest of the Government.

(g) Notwithstanding paragraph (f) above, if the Contractor was aware, or should have been aware, of an organizational conflict of interest prior to the award of this contract or becomes, or should become, aware of an organizational conflict of interest after award of this contract and does not make an immediate and full disclosure in writing to the Contracting Officer, the Government may terminate this contract for default.

(h) If the Contractor takes any action prohibited by this requirement or fails to take action required by this requirement, the Government may terminate this contract for default.

(i) The Contracting Officer's decision as to the existence or nonexistence of an actual or potential organizational conflict of interest shall be final.

(j) Nothing in this requirement is intended to prohibit or preclude the Contractor from marketing or selling to the United States Government its product lines in existence on the effective date of this contract; nor, shall this requirement preclude the Contractor from participating in any

research and development or delivering any design development model or prototype of any such equipment. Additionally, sale of catalog or standard commercial items are exempt from this requirement.

(k) The Contractor shall promptly notify the Contracting Officer, in writing, if it has been tasked to evaluate or advise the Government concerning its own products or activities or those of a competitor in order to ensure proper safeguards exist to guarantee objectivity and to protect the Government's interest.

(l) The Contractor shall include this requirement in subcontracts of any tier which involve access to information or situations/conditions covered by the preceding paragraphs, substituting "subcontractor" for "contractor" where appropriate.

(m) The rights and remedies described herein shall not be exclusive and are in addition to other rights and remedies provided by law or elsewhere included in this contract.

(n) Compliance with this requirement is a material requirement of this contract.

NMCARS Part 5237.102(90) Enterprise-wide Contractor Manpower Reporting Application (ECMRA)

5237.102(90) DoD contracting activities awarding or administering contracts shall incorporate the following Enterprise-wide Contractor Manpower Reporting Application (ECMRA) standard language into all contracts which include services, provided the organization that is receiving or benefiting from the contracted service is a Department of Defense organization, including reimbursable appropriated funding sources from non-DoD executive agencies where the Defense Component requiring activity is the executive agent for the function performed. The reporting requirement does not apply to situations where a Defense Component is merely a contracting agent for another executive agency. The only contracted services excluded from reporting are construction and utilities. The standard language to be inserted is:

"The contractor shall report ALL contractor labor hours (including subcontractor labor hours) required for performance of services provided under this contract for the [NAMED COMPONENT] via a secure data collection site. The contractor is required to completely fill in all required data fields using the following web address <https://doncmra.nmci.navy.mil> .

Reporting inputs will be for the labor executed during the period of performance during each Government fiscal year (FY), which runs October 1 through September 30. While inputs may be reported any time during the FY, all data shall be reported no later than October 31 of each calendar year. Contractors may direct questions to the help desk, linked at <https://doncmra.nmci.navy.mil>."

SECTION E INSPECTION AND ACCEPTANCE

Inspection and Acceptance shall be performed at NSWCDD, Dahlgren, VA by the Contracting Officer Representative (COR) designated herein.

PERFORMANCE BASED CRITERIA:

PERFORMANCE BASED CONTRACT REVIEW AND ACCEPTANCE PROCEDURE

(a) This is a performance-based contract as defined in FAR Part 37.6 (PERFORMANCE BASED ACQUISITION). Contractor performance will be reviewed in accordance with the Quality Assurance Surveillance Plan in this Section.

(b) The plan defines that this review and acceptance will become part of the annual Contractor Performance Assessment Reporting System (CPARS). The contractor may obtain more information regarding the CPARS process at the following internet site: <http://cpars.navy>.

Special Contract Requirements, Quality Assurance Surveillance Plan (QASP)

1. Purpose

This Quality Assurance Surveillance Plan (QASP) is a Government developed and applied document used to make sure the systematic quality assurance methods are used in the administration of the performance based service order. The intent is to ensure that the contractor performs in accordance with the performance metrics and the Government receives the quality of services called for in the order.

This Task Order provides Configuration Management support to the NSWCDD Warfare Systems Department (W). The resulting performance based order will have cost plus fixed fee Labor CLINS, and cost only Other Direct Cost (ODC) CLINS. The order will be for a base year with two one-year options. A properly executed QASP will assist the Government in achieving the overall objectives of this procurement.

2. Authority

Authority for issuance of this QASP is provided under Contract Section E – Inspection and Acceptance, which provides for inspections and acceptance of the services and documentation called for in service contracts, to be executed by the Contracting Officer or a duly authorized representative.

3. Scope

The QASP is put in place to provide Government surveillance oversight of the contractor's efforts to assure that they are timely, effective and are delivering the results specified in the

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 74 of 246	FINAL

order.

The contractor's performance on this task order will be evaluated by the Government as described below. The first evaluation will cover the first six-months of performance with successive evaluations being performed for each twelve-month period thereafter until the contractor completes performance under this task order. For the first six-month period and each subsequent twelve-month period, the Government will evaluate the contractor's performance. The evaluation will encompass all work performed by the contractor at any time during the six/twelve-month period but will not include cumulative information from prior reports. For each period, the Contractor will complete a self- assessment of the performance provided, to be delivered to the COR and Contract Specialist NLT 60 days following the period being evaluated. The self-assessment shall cover all areas of the Government QASP. Based on the evaluation results, the Contracting Officer will assign an overall performance rating. If the Contracting Officer assigns an "Unsatisfactory" overall performance rating for the period evaluated, the next option period may not be exercised. As options are exercised, improved performance is required as demonstrated in Table 2.

4. GOVERNMENT RESOURCES AND Responsibilities

The following Government resources shall have responsibility for the implementation of this QASP:

Contracting Officer – The Contracting Officer ensures performance of all necessary actions for effective contracting, ensures compliance with the terms of the contract and safeguards the interests of the United States in the contractual relationship. It is the Contracting Officer that assures the Contractor receives impartial, fair and equitable treatment under the contract. The Contracting Officer is ultimately responsible for the final determination of the adequacy of the Contractor's performance. The PCO for this contract is identified in Section G.

Contract Specialist– An individual assigned by the PCO to assist in the daily administration of the contract. The Specialist also provides input to the PCO and the COR as to the quality of performance for areas addressed in this QASP. The Contract Specialist for this contract is identified in Section G.

Contracting Officer's Representative (COR) –The COR is responsible for technical administration of the contract and assures proper Government surveillance of the contractor's performance. The COR is not empowered to make any contractual commitments or to authorize any changes on the Government's behalf. Any changes that the contractor deems may affect contract price, terms, or conditions shall be referred to the Contracting Officer for action.

Technical Assistant (TA) – The COR designates an individual Government Technical Point of Contact to assist in administering specific projects under the contract. The Government TA is responsible for assisting in administering a specific project under the contract. A Government TA cannot, in any manner, alter the scope of the contract, make commitments or authorize any

changes on the Government's behalf.

5. Methods of QA Surveillance

a. QASP - The below listed methods of surveillance shall be used by the COR in the technical administration and the PCO/Contract Specialist in non-technical administration of this QASP. The QASP will be the prime determinant in exercising the option.

b. Contractor Performance Assessment Reporting System (CPARS) – The market place for information technology, engineering, and management support services is very competitive. As such, the successful offeror has a vested interest in the Government generated CPARS under this contract. Additionally, an evaluation using the CPARS format will be performed at the end of each year of performance. This evaluation will be one determinant in exercising an option. The government assessment of this procurement will address the quality of product or service, schedule, cost control, business relations, management, and other important areas. As this information may affect future source selections throughout DOD, and the continuation of the order, the annual Government assessment will be used appropriately as an additional performance oversight and communication tool with the QASP.

6. DOCUMENTATION

In addition to providing annual reports to the Contracting Officer, the COR will maintain a complete Quality Assurance file. The file will contain copies of all reports, evaluations, recommendations, and any actions related to the Government's performance of the quality assurance function. The COR shall forward these records to the Contracting Officer at termination or completion of the order.

7. SURVEILLANCE

The tables below set forth the performance ratings, standards, outcome and surveillance methods to document the results of the surveillance on a annual basis as well as interim and informal reviews (i.e. IPRs) on a more frequent basis.

(a) Performance Ratings: The Government will evaluate the contractor's performance of the Performance Work Statement (PWS) and the Contracting Officer will assign one of the following ratings:

- (1) Excellent
- (2) Satisfactory
- (3) Unsatisfactory

The standards associated with these ratings are given in the following Table 1.

TABLE 1: OVERALL PERFORMANCE RATINGS

Overall Performance Rating	Standard
Excellent	“Excellent” ratings for all performance evaluation criteria.
Satisfactory	A minimum of “Satisfactory” ratings for all performance evaluation criteria.
Unsatisfactory	A rating of “Unsatisfactory” for one or more performance evaluation criteria.

(b) Objectives / Determination:

(1) Interim/Informal

Interim/informal performance evaluations will be provided to assess performance at each IPR.

(2) Annual

The Contracting Officer will make a performance determination at the end of each evaluation period. The determination will be based upon the COR’s recommendations, the contractor’s comments including any Self-Evaluation Report, and any other information deemed relevant by the Contracting Officer. The Contracting Officer shall resolve disagreements between the COR’s recommendations and the contractor’s comments/report regarding the evaluation. The Contracting Officer’s performance determination is unilateral and final. The Contracting Officer will document the determination and provide a copy to the contractor within 30 days of receipt of the contractor’s self-assessment.

* The Government may not exercise the next option year term unless the contractor meets the acceptable performance definition.

(c) Performance Evaluation Criteria. The contractor's performance will be evaluated using the criteria and standards provided for each objective, and identified in Tables 3, 5 and 6 of this contract clause. Based on this evaluation, each assessment period will be given an overall rating resulting from the rolled up objective. Each of the criteria in Tables 3, 5 and 6 must score a minimum of "Satisfactory" to receive an overall performance rating of "Satisfactory" in each assessment period. Ratings of "Excellent" are required in the two option years as shown in the table above.

(d) Organization. The performance evaluation organization consists of the Contracting Officer, who will serve as the Determining Official, and the COR. In some instances, a TPOC will be assigned to the contract or task order in addition to a COR.

(e) This performance evaluation does not replace any other requirement for evaluating contractor performance that may be required by this task order such as a Contractor Performance Assessment Reporting System (CPARS) report, or a Task Order Performance Evaluation (TOPE) report.

TABLE 5: CONTRACT MANAGEMENT PERFORMANCE EVALUATION CRITERIA

AND STANDARDS

CRITERION	UNSATISFACTORY	SATISFACTORY	EXCELLENT
Problem Resolution	Problems are unresolved, repetitive, or take excessive government effort to resolve.	Problems are resolved quickly with minimal government involvement.	Problems are non-existent or the contractor takes corrective action without government involvement.
Responsiveness	Contractor's management is unresponsive to government requests and concerns.	Contractor's management is responsive to government requests and concerns.	Contractor's management takes proactive approach in dealing with government representatives and anticipates Government concerns.
Communications	Contractor often fails to communicate with government in an effective and timely manner.	Contractor routinely communicates with government in an effective and timely manner.	Contractor takes a proactive approach such that communications are almost always clear, effective and timely.

TABLE 6: COST EFFICIENCY PERFORMANCE EVALUATION CRITERIA AND STANDARDS

CRITERION	UNSATISFACTORY	SATISFACTORY	EXCELLENT
Cost Management	Contractor routinely fails to complete the effort within the originally agreed to estimated cost, i.e. cost overruns frequently occur.	Contractor routinely completes the effort within the originally agreed to estimated cost. Contractor provides measures for controlling all costs at estimated costs. Funds and resources are generally used in a cost-effective manner. No major resource management problems are apparent.	Reductions in direct costs to the Government below contract estimated costs are noteworthy. Contractor provides detailed cost analysis and recommendations to Government for resolution of problems identified. Funds and resources are optimally used to provide the maximum benefit for the funds and resources available. Documented savings are apparent.

[REDACTED]

(b) PCO responsibilities are outlined in FAR 1.602-2. The PCO is the only person authorized to approve changes in any of the requirements of this Task Order, notwithstanding provisions contained elsewhere in this contract, the authority remains solely the PCO's. The contractor shall not comply with any order, direction or request of Government personnel unless it is issued in writing and signed by the Contracting Officer or is pursuant to specific authority otherwise included as part of this contract. In the event the contractor effects any change at the direction of any person other than the PCO, the change will be considered to be unauthorized.

Contract Specialist:

(a) [REDACTED]

(b) The Contract Specialist is the representative of the Contracting Officer for all contractual matters.

Administrative Contracting Officer (ACO):

(a) [REDACTED]

(b) The Administrative Contracting Officer (ACO) of the cognizant Defense Contract Management Agency (DCMA) is designated as the authorized representative of the Contracting Officer for purposes of administering this Task Order in accordance with FAR 42.3. However, in view of the technical nature of the supplies and services to be furnished, technical cognizance is retained by the Naval Surface Warfare Center, Dahlgren Division.

Contracting Officer's Representative (COR):

(a) [REDACTED]

(b) The COR is the PCO's appointed representative for technical matters. The COR is not a contracting officer and does not have the authority to direct the accomplishment of effort which is beyond the scope of the Task Order or to otherwise change any Task Order requirements. An informational copy of the COR appointment letter which provides a delineation of COR authority and responsibilities is provided as an attachment to this Task Order.

Ddl-G12 POST AWARD MEETING

(a) A Post Award Meeting with the successful offeror will be conducted within 15 working days after award of the contract. The meeting will be held at (to be identified at Task Order award).

(b) The contractor will be given at least five working days notice prior to the date of the meeting by the Contracting Officer.

(c) The requirement for a Post Award meeting shall, in no event, constitute grounds for excusable delay by the Contractor in performance of any provisions of the Task Order.

HQ G-2-0007 INVOICE INSTRUCTIONS (NAVSEA) (APR 2011)

(a) In accordance with the clause of this contract entitled "ELECTRONIC SUBMISSION OF PAYMENT REQUESTS" (DFARS 252.232-7003), the Naval Sea Systems Command (NAVSEA) will utilize the DoD Wide Area Workflow Receipt and Acceptance (WAWF) system to accept supplies/services delivered under this contract. This web-based system located at <https://wawf.eb.mil> provides the technology for government contractors and authorized Department of Defense (DoD) personnel to generate, capture and process receipt and payment-related documentation in a paperless environment. Invoices for supplies/services rendered under this contract shall be submitted electronically through WAWF. Submission of hard copy DD250/invoices may no longer be accepted for payment.

(b) It is recommended that the person in your company designated as the Central Contractor Registration (CCR) Electronic Business (EB) Point of Contact and anyone responsible for the submission of invoices, use the online training system for WAWF at <http://wawftraining.com>. The Vendor, Group Administrator (GAM), and sections marked with an asterisk in the training system should be reviewed. Vendor documentation is available under Resources at <http://wawftraining.com>.

(c) The designated CCR EB point of contact is responsible for activating the company's CAGE code on WAWF by calling 1-866-618-5988. Once the company is activated, the CCR EB point of contact will self-register under the company's CAGE code on WAWF and follow the instructions for a group administrator. After the company is set-up on WAWF, any additional persons responsible for submitting invoices must self-register under the company's CAGE code at <https://wawf.eb.mil>.

(d) The contractor shall use the following document types, DODAAC codes and inspection and acceptance locations when submitting invoices in WAWF:

Type of Document (*contracting officer check all that apply*)

- Invoice (FFP Supply & Service)
- Invoice and Receiving Report Combo (FFP Supply)
- Invoice as 2-in-1 (FFP Service Only)
- Cost Voucher (Cost Reimbursable, T&M , LH, or FPI)

Attachments created in any Microsoft Office product may be attached to the WAWF invoice, e.g., backup documentation, timesheets, etc. Maximum limit for size of each file is 2 megabytes. Maximum limit for size of files per invoice is 5 megabytes.

(e) The Contractor agrees to segregate costs incurred under this task order at the lowest level of performance, either task or subtask, rather than on a total task order basis, and to submit invoices reflecting costs incurred at that level. Supporting documentation in WAWF for invoices shall include summaries of work charged during the period covered as well as overall cumulative summaries by individual labor categories, rates, and hours (both straight time and overtime) invoiced; as well as a cost breakdown of ODCs (materials and travel), by line item task or subtask. Subcontractors are also required to provide labor categories, rates, and hours (both straight time and overtime) invoiced; as well as, a cost breakdown of ODCs, materials, and travel invoiced. Supporting documentation may be encrypted before submission to the prime contractor for WAWF invoice submittal. Subcontractors may email encryption code information directly to the Contracting Officer and Contracting Officer Representative. Should the subcontractor lack encryption capability, the subcontractor may also email detailed supporting cost information directly to the Contracting Officer and Contracting Officer Representative; or other method as agreed to by the Contracting Officer.

(f) Before closing out of an invoice session in WAWF, but after submitting the document(s), you will be prompted to send additional email notifications. Click on “Send More Email Notification” and add the acceptor/receiver email addresses noted below in the first email address block, and add any other additional email addresses desired in the following blocks. This additional notification to the government is important to ensure that the acceptor/receiver is aware that the invoice documents have been submitted into WAWF.

Send Additional Email Notification To:

(g) The contractor shall submit invoices/cost vouchers for payment per contract terms and the government shall process invoices/cost vouchers for payment per contract terms. Contractors approved by DCAA for direct billing will submit cost vouchers directly to DFAS via WAWF. Final voucher submission will be approved by the ACO.

(h) If you have any questions regarding WAWF, please contact the WAWF helpdesk at the above 1-866 number or the NAVSEA WAWF point of contact Margaret Morgan at (202) 781-4815 or

CONSENT TO SUBCONTRACT

For subcontracts and consulting agreements for services, where the prime contractor anticipates that hours delivered will be counted against the hours in the Level of Effort clause in this section, Consent to Subcontract authority is retained by the Procuring Contracting Officer.

The following subcontractors are approved on this Task Order:

The requirement for an approved accounting system and clause Travel Costs – Alternate 1 (NAVSEA)(DEC 2005) flows down to subcontractors. If a subcontractor does not have a Defense Contract Audit Agency or Contract Administrative Officer approved accounting system, only firm fixed priced or labor hours subcontracts are allowed. Under time and material subcontracts, only actual travel costs (no burdens) that comply with the Travel Regulations listed in FAR 31.205-46 will be allowed. Furthermore, the prime is responsible for monitoring all travel expenses for compliance.

Ddl-G40 PAYMENT, SELECTED ITEMS OF COST REIMBURSEMENT CONTRACTS

(a) Travel costs

The contractor shall, to the maximum extent practicable, minimize overall travel costs by taking advantage of discounted airfare rates available thru advance purchase. Charges associated with itinerary changes and cancelations under nonrefundable airline tickets are reimbursable as long as the changes are driven by the work requirement.

(b) Training

The Government will not allow costs, nor reimburse costs associated with the contractor for training employees in an effort to attain and/or maintain minimum personnel qualification requirements of this contract. Other training may be approved on a case-by-case basis by the Contracting Officer. Advance approval is required. Attendance at workshops or symposiums is considered training for purposes of this clause. The contractor is encouraged to suggest a cost-sharing arrangement that addresses registration/tuition, travel and labor costs.

(c) General Purpose Office Equipment (GPOE) and Information Technology (IT)

The cost of acquisition of GPOE and IT shall not be allowable as direct charges to this contract. The contractor is expected to have the necessary CONUS facilities to perform the requirements of this contract, including any necessary GPOE and IT. GPOE means equipment normally found in a business office such as desks, chairs, typewriters, calculators, file cabinets, etc. IT means any

equipment or interconnected system or subsystem of equipment that is used in the automatic acquisition, storage, manipulation, movement, control, display, switching, interchange, transmission, or reception of data or information. IT includes computers, ancillary equipment, software, firmware and similar products, services (including support services), and related resources for both unclassified and classified applications.

(d) The requirements of the above clause apply equally to subcontractors and consultants.

(e) Travel and Materials are allowable direct charges for the prime and BAE. The proposed Computer Service Cost is an allowable direct charge for Northrop Grumman only. Any additional Other Direct Cost (ODC) items are unallowable as a direct charge to this Task Order with express advance approval by the Contracting Officer.

(f) Management and Support labor may be direct charged by the following firms: SCCI, BAE, Northrop Grumman and URS.

EARLY DISMISSAL AND CLOSURE OF GOVERNMENT FACILITIES

When a Government facility is closed and/or early dismissal of Federal employees is directed due to severe weather, security threat, or a facility related problem that prevents personnel from working, onsite contractor personnel regularly assigned to work at that facility should follow the same reporting and/or departure directions given to Government personnel. The contractor shall not direct charge to the contract for time off, but shall follow parent company policies regarding taking leave (administrative or other). Non-essential contractor personnel, who are not required to remain at or report to the facility, shall follow their parent company policy regarding whether they should go/stay home or report to another company facility. Subsequent to an early dismissal and during periods of inclement weather, onsite contractors should monitor radio and television announcements before departing for work to determine if the facility is closed or operating on a delayed arrival basis.

When Federal employees are excused from work due to a holiday or a special event (that is unrelated to severe weather, a security threat, or a facility related problem), on site contractors will continue working established work hours or take leave in accordance with parent company policy. Those contractors who take leave shall not direct charge the non-working hours to the task order. Contractors are responsible for predetermining and disclosing their charging practices for early dismissal, delayed openings, or closings in accordance with the FAR, applicable cost accounting standards, and company policy. Contractors shall follow their disclosed charging practices during the task order period of performance, and shall not follow any verbal directions to the contrary. The Contracting Officer will make the determination of cost allowability for time lost due to facility closure in accordance with FAR, applicable Cost Accounting Standards, and the Contractor's established accounting policy.

SECTION H SPECIAL CONTRACT REQUIREMENTS

TASK ORDER LABOR CATEGORY QUALIFICATIONS

To perform the requirements of the PWS, the Government desires Key Personnel with the appropriate experience and professional development qualifications. Key Personnel qualification levels are considered to be "desired" for those individuals whose resumes are submitted for evaluation with the proposal. Resumes for any replacement personnel that are submitted following award shall be equal to or better than the individuals initially proposed as required by the clause entitled NAVSEA 5252.237-9106 Substitution of Personnel. Following award, the qualification levels are considered to be minimums for any growth beyond those individuals initially proposed or in labor categories where no resumes were required for proposal purposes. Labor categories are identified as Key and Non-Key.

Two groups of Key Personnel will support this order - Resumed Key Personnel and Non-Resumed Personnel Performing in Key Labor Categories. The desired Key Personnel qualifications are identified below in KEY LABOR CATEGORY DESIRED QUALIFICATIONS.

Resumed Key Personnel are the Key Personnel whose resumes were submitted with the offeror's proposal for evaluation purposes or their replacement following award. (Section L provision 4.2 Key Personnel identifies the number of Full-Time Equivalents for which resumes are required in the offeror's proposal.)

Non-Resumed Personnel Performing in Key Labor Categories are the remaining personnel proposed to provide support in the Key Personnel labor categories. The desired qualifications for Non-Resumed Personnel performing in Key Labor Categories are identified in KEY LABOR CATEGORY DESIRED QUALIFICATIONS below.

Non-Key Personnel are the personnel proposed to provide hours in labor categories that are not identified as Key. Non-Key Personnel should meet or exceed the NON KEY PERSONNEL MINIMUM QUALIFICATIONS identified below.

Post Award: Prior to charging Non-Resumed Personnel Performing in Key Labor Categories and Non-Key Personnel under the order, the contractor shall provide a written notification stating the individual's name, order labor category, employer, tasking/project the person will support, and certifying that the individual either meets the desired qualifications of the labor category as specified under the order OR identifying the labor category qualifications the person does not fully meet and providing a brief explanation of the benefits of this person performing in the stated order labor category. Personnel qualification certifications for additional and/or replacement personnel should be submitted via e-mail. E-mail submissions shall be made simultaneously to the Contract Specialist, Contracting Officer Representative (COR), Alternate Contracting Officers Representative (ACOR), and Technical Assistant (TA), if applicable. The Contract Specialist will acknowledge receipt of these notifications.

When Non-Resumed Personnel Performing in Key Labor Categories or Non-Key Personnel will no longer be charged against this order (no longer employed by the company, assigned to another program, etc.), the contractor shall notify the Contract Specialist, COR, ACOR, and TA (if applicable) via e-mail with the date of departure from this order.

TASK ORDER LABOR CATEGORIES

To perform the requirements of the PWS, the Government desires personnel with the following education and experience qualifications:

(a) Education

The desired education qualification for each position is detailed below. Although a degree is highly desired for many labor categories, a candidate with lengthy and meritorious experience in the requisite areas in lieu of a degree may be considered.

(b) Experience

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 232 of 246	FINAL
----------------------------------	---	----------------------------------	--------------------	-------

The desired experience for each position is listed below. This experience must be directly related to the tasks and programs listed in the PWS. In addition to the experience listed below, general experience in configuration management, engineering, computer science, mathematics, physical science, and/or another field appropriate to the labor category employing skills that apply to the accomplishment of the technical objectives of the PWS is a plus and will be favorably considered (such experience may not necessarily meet the desired qualifications listed below), as will experience utilizing automated systems, including personal computers/ workstations and basic software applications such as word processors, spreadsheets, graphics/ presentation packages, databases and e-mail

KEY PERSONNEL – DESIRED QUALIFICATIONS

The following paragraphs describe the desired education and experience qualification levels for each of the Key Personnel categories. Replacement of key personnel requires equivalent or better qualifications, position cannot remain unfilled and must meet current staffing level requirement, replacement resume and transition plan must be approved by the Government.

Definitions

(a) General Experience - General experience includes work experience in the CM/DM discipline to include: Configuration Management Planning, Configuration Identification, Configuration Control, Configuration Status Accounting, Configuration Verification and Audits, or Data Management; as it applies to the accomplishment of the technical objectives of the PWS.

(b) Specialized Experience - Specialized experience includes work experience in any of the following specific areas of CM/DM as applied to system engineering processes for U.S. Government and DOD systems, combat systems, system of systems, emerging capabilities, and information technology:

-- CM Planning: Development of CM Programs, author CM Plans and standard operating procedures, determine appropriate and effective CM strategies, development of metrics to improve CM processes, enterprise CM initiatives, generate and present technical briefs, leadership and execution of CM Program

-- Configuration Identification: Process nomenclature requests in accordance with DOD requirements, define product structure and nomenclature requirements, develop software versioning schema, develop identification procedures for COTS/NDI, establish and maintain baselines. Participate in development of system and subsystem specifications including the management of requirements and traceability.

-- Configuration Control: Develop processes for configuration control, relationships between changes and configuration items, priority and approval requirements, impact assessments, alignment of program CM processes with Navy Modernization process, maintaining configuration control of interfaces, documentation control, management of review and assessment process for changes, coordination of changes across an enterprise

-- Configuration Status Accounting: Requirements for and reporting of configuration status accounting of system/ship configuration, development of requirements for CM tools, produce material for configuration control boards, development and delivery of training for tools and status accounting processes

-- Configuration Verification and Audits: Development of plans, tools and reporting of functional and physical configuration audits, ship/system/test facility configurations. Resolution of findings. Participation in audits.

-- Data Management: Define document review process, data management strategies and plans, identify reporting periodicity, requirements for sharing of data between tools, workflow development and implementation, procedures to maintain data integrity and validate accuracy and timeliness of data

-- Release Management: Experience producing media labels, transmittals, software version description documents, reproducing media, access control management, coordination of delivery to end user, verification of technical data, author Configuration Control Board Directives

By definition, specialized experience satisfies the definition of general experience and can be counted concurrently.

CONTRACT PROGRAM MANAGER

A bachelors degree or higher with a total of fifteen (15) years combined general and specialized experience to include eight (8) years specialized and five (5) years of DOD contract management experience to include experience in subcontracting. Specific experience should include all aspects of contract management (technical, cost, personnel, and schedule), experience determining resources for execution of

project tasking, and interfacing with the Contracting Officer and Task Order Manager to administer tasks in accordance with the contract.

PROJECT MANAGER

A bachelors degree or higher with a total of fifteen (15) years combined general and specialized experience to include eight (8) years specialized and five (5) years leading and supervising personnel for a CM Program. Specific experience should include all aspects of project performance (technical, cost, and schedule) and experience providing technical direction to all project activities and personnel, including formulating and enforcing work standards, assigning project schedules, reviewing work, supervising project personnel and communicating policies and organizational goals and objectives to all project personnel.

SENIOR ANALYST

A bachelor's degree with a total of fifteen (15) years combined general and specialized experience to include ten (10) years specialized.

MID-LEVEL ANALYST

A bachelor's degree with a total of ten (10) years combined general and specialized experience to include five (5) years specialized.

SENIOR SPECIALIST

A total of fifteen (15) years combined general and specialized experience to include ten (10) years specialized.

SPECIALIST

A total of seven (7) years combined general and specialized experience to include four (4) years specialized.

NON-KEY PERSONNEL – DESIRED QUALIFICATIONS

The following paragraphs describe the desired education and experience qualification levels for each of the Non-key Personnel categories.

JUNIOR ANALYST

A bachelor's degree in an entry level position with zero (0) to four (4) years general and/or specialized experience.

JUNIOR SPECIALIST

Entry level position with zero (0) to four (4) years general and/or specialized experience.

KEY CATEGORY

Resumes shall be provided for Key Personnel that best demonstrate the offeror's ability for successfully meeting the requirements of this Task Order. In order to facilitate proposal evaluation, resumes shall be submitted with the level of detail described in Section H. Resumes for the following minimum number of Full-Time Equivalents (FTE) are required. If an individual is proposed less than the identified FTE noted below, additional resume(s) are required to meet the following FTE requirements. The individual proposed to be the Contract Program Manager should be clearly identified.

RESUME FORMAT AND CONTENT REQUIREMENTS

RESUME FORMAT AND CONTENT: In order to facilitate evaluation, all resumes shall be provided in the following format:

Complete Name

Task Order Labor Category / Contractor Labor Category

Percentage of time to be allocated to this effort

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 234 of 246	FINAL
----------------------------------	---	----------------------------------	--------------------	-------

Current security clearance level per JPAS (identify if interim or final)

Current work location and planned work location upon award of this Task Order

Note if the individual is key on another contract with a period of performance that will overlap this requirement.
Note plans to satisfy both contracts if the Offeror is selected for award.

Chronological Work History / Experience – Show experience and date(s) as follows:

(a) Employer: Dates (month/year); Title(s) held

(b) Work experience shall be presented separately for each employer, clearly marked with proper category of experience (i.e, Relevant Experience; Non-Relevant Experience.). If relevant and non-relevant experience were obtained while at the same employer, separate time periods shall be noted for each assignment. (This is necessary to prevent an offeror from describing relevant experience obtained in a six month assignment for Company A as applicable to the entire 10-year employment with that firm and to ensure offerors' proposals are evaluated on an equal basis). Responsibilities shall be discussed in sufficient detail for each assignment so as to permit comparison with desired experience levels in Section H. Specific examples of work assignments, accomplishments, and products shall be provided.

(c) Phrases such as "assisted with", "participated in", or "supported" are UNACCEPTABLE except as introductory to a detailed description of the actual work performed. If no such description is provided, the sentence or bulleted information will NOT be considered in the resume evaluation process. This is because evaluators would not be able to identify the specific technical work contributions made by the individual.

(d) Resume information is encouraged to be presented in bullet format. This will allow evaluators to focus on relevant information.

(e) Offerors shall note that the lack of specific definition in job responsibilities, services performed or products produced may be viewed as a lack of understanding of the Government's overall technical requirements.

(f) All relevant military experience claimed shall be described such that each relevant tour is treated as a separate employer. Time frames/titles/responsibilities shall be provided in accordance with the level of detail prescribed above. Military experience not documented in this manner will not be considered.

(g) Gaps in experience shall be avoided.

(h) The cut-off date for any experience claimed shall be the closing date of the solicitation.

(i) PROFESSIONAL DEVELOPMENT – Show any honors, degrees, publications, professional licenses, specialized certifications and other evidence of professional accomplishments that are directly relevant and impact the offeror's ability to perform under the Task Order. For education and training, the following format is preferred:

Academic: Degree(s); Date(s); Institution; Major/Minor

Non-Academic: Course title, date(s), approximate length

Professional licenses and specialized certifications. Note the date obtained for each, as well as the date when each license/certification requires renewal.

CONTRACT NO. N00178-04-D-4127	DELIVERY ORDER NO. N00178-04-D-4127-0007	AMENDMENT/MODIFICATION NO. 92	PAGE 235 of 246	FINAL
----------------------------------	---	----------------------------------	--------------------	-------

(j) Certification of correctness of information signed and dated by both the person named and the Offeror. The employee certification shall include the following statement: CERTIFICATION: "I certify that the experience and professional development described herein are complete and accurate in all respects. I consent to the disclosure of my resume for NSWCCD Solicitation N00024-11-R-3125 by _____ (insert Offeror's company name) and intend to make myself available to work under any resultant contract to the extent proposed."

Employee Signature and Date

Offeror Signature and Date

Resumes without this certification will be unacceptable and will not be considered. The employee certification shall not be dated earlier than the issue date of this solicitation.

(k) If the employee is not a current employee of the offeror (or a proposed subcontractor), a copy of the accepted offer letter shall be provided. The letter shall identify the projected start date. The Cost Proposal shall include documentation that identifies the agreed-to salary amount.

Ddl-H13 POST AWARD CONTRACTOR PERSONNEL APPROVAL

(a) Requests for post award approval of additional and/or replacement Key personnel shall be submitted via e-mail. E-mail submissions shall be made simultaneously to the Contract Specialist and the COR, and the Alternate COR. Electronic notification via e-mail from the Contract Specialist will serve as written approval/disapproval on behalf of the Contracting Officer. This approval is required before an individual may begin charging to the Task Order.

(b) It is desired that resumes be submitted in the format required below. However, in order to expedite contract administration, contractor format may be used providing sufficient information is submitted for an independent comparison of the individual's qualifications with labor category requirements.

(c) If the employee is not a current employee of the contractor (or a subcontractor), a copy of the accepted offer letter (which identifies a projected start date and the agreed to annual salary) shall be provided.

NAVSEA 5252.216-9122 LEVEL OF EFFORT - ALTERNATE I (MAY 2010)

(a) The Contractor agrees to provide the total level of effort specified below in performance of the work described in Sections B and C of this task order. The total level of effort for the performance of this task order shall be man-hours of direct labor, including subcontractor direct labor for those subcontractors specifically identified in the Contractor's proposal as having hours included in the proposed level of effort. The table below and information for blanks in paragraph (b) and (d) are to be completed by the Offeror.

CLIN	Period	Total Labor Hours	Compensated	Uncompensated

4300	Option II		0
4210	Option II SURGE		0
7000	Option II		0
Total			

(b) Of the total man-hours of direct labor set forth above, it is estimated that (Offeror to fill-in) man-hours are uncompensated effort. Uncompensated effort is defined as hours provided by personnel in excess of 40 hours per week without additional compensation for such excess work. Total Times Accounting (TTA) efforts are included in this definition. All other effort is defined as compensated effort. If no effort is indicated in the first sentence of this paragraph, uncompensated effort performed by the Contractor shall not be counted in fulfillment of the level of effort obligations under this contract.

(c) Effort performed in fulfilling the total level of effort obligations specified above shall only include effort performed in direct support of this task order and shall not include time and effort expended on such things as (local travel to and from an employee's usual work location), uncompensated effort while on travel status, truncated lunch periods, work (actual or inferred) at an employee's residence or other non-work locations (except as provided in paragraph (i) below), or other time and effort which does not have a specific and direct contribution to the tasks described in Sections B and C.

(d) The level of effort for this contract shall be expended at an average rate of approximately (Offeror to fill in) hours per week. It is understood and agreed that the rate of man-hours per month may fluctuate in pursuit of the technical objective, provided such fluctuation does not result in the use of the total man-hours of effort prior to the expiration of the term hereof, except as provided in the following paragraph.

(e) If, during the term hereof, the Contractor finds it necessary to accelerate the expenditure of direct labor to such an extent that the total man-hours of effort specified above would be used prior to the expiration of the term, the Contractor shall notify the Contracting Officer in writing setting forth the acceleration required, the probable benefits which would result, and an offer to undertake the acceleration at no increase in the estimated cost or fee together with an offer, setting forth a proposed level of effort, cost breakdown, and proposed fee, for continuation of the work until expiration of the term hereof. The offer shall provide that the work proposed will be subject to the terms and conditions of this contract and any additions or changes required by then current law, regulations, or directives, and that the offer, with a written notice of acceptance by the Contracting Officer, shall constitute a binding contract. The Contractor shall not accelerate any effort until receipt of such written approval by the Contracting Officer. Any agreement to accelerate will be formalized by contract modification.

(f) The Contracting Officer may, by written order, direct the Contractor to accelerate the expenditure of direct labor such that the total man-hours of effort specified in paragraph (a) above would be used prior to the expiration of the term. This order shall specify the acceleration required and the resulting revised term. The Contractor shall acknowledge this order within five days of receipt.

(g) The Contractor shall provide and maintain an accounting system, acceptable to the Administrative Contracting Officer and the Defense Contract Audit Agency (DCAA), which collects costs incurred and effort (compensated and uncompensated, if any) provided in fulfillment of the level of effort obligations of this task order. The Contractor shall indicate on each invoice the total level of effort claimed during the period covered by the invoice, separately identifying compensated effort and uncompensated effort, if any.

(h) Within 45 days after completion of the work under each separately identified period of performance hereunder, the Contractor shall submit the following information in writing to the Contracting Officer with copies to the cognizant Contract Administration Office and to the DCAA office to which vouchers are submitted: (1) the total number of man-hours of direct labor expended during the applicable period; (2) a breakdown of this total showing the number of man-hours expended in each direct labor classification and associated direct and indirect costs; (3) a breakdown of other costs incurred; and (4) the Contractor's estimate of the total allowable cost incurred under the contract for the period. Within 45 days after completion of the work under the task order, the Contractor shall submit, in addition, in the case of a cost underrun; (5) the amount by which the estimated cost of this contract may be reduced to recover excess funds. All submissions shall include subcontractor information.

(i) Unless the Contracting Officer determines that alternative worksite arrangements are detrimental to contract performance, the Contractor may perform up to 10% of the hours at an alternative worksite, provided the Contractor has a company-approved alternative worksite plan. The primary worksite is the traditional "main office" worksite. An alternative worksite means an employee's residence or a telecommuting center. A telecommuting center is a geographically convenient office setting as an alternative to an employee's main office. The Government reserves the right to review the Contractor's alternative worksite plan. In the event performance becomes unacceptable, the Contractor will be prohibited from counting the hours performed at the alternative worksite in fulfilling the total level of effort obligations of the contract. Regardless of work location, all contract terms and conditions, including security requirements and labor laws, remain in effect. The Government shall not incur any additional cost nor provide additional equipment for contract performance as a result of the Contractor's election to implement an alternative worksite plan.

(j) Notwithstanding any of the provisions in the above paragraphs and subject to the LIMITATION OF FUNDS or LIMITATION OF COST clauses, as applicable, the period of performance may be extended and the estimated cost may be increased in order to permit the Contractor to provide all of the man-hours listed in paragraph (a) above. The Contractor shall continue to be paid fee for each man-hour performed in accordance with the terms of the task order.

(b) The parties contemplate that the Government will allot additional amounts to this contract from time to time for the incrementally funded CLINs/SLINs by unilateral contract modification, and any such modification shall state separately the amount(s) allotted for cost, the amount(s) allotted for fee, the CLINs/SLINs covered thereby, and the period of performance which the amount(s) are expected to cover.

(c) CLINs/SLINs _____ are fully funded and performance under these CLINs/SLINs is subject to the clause of this contract entitled "LIMITATION OF COST" (FAR 52.232-20).

(d) The Contractor shall segregate costs for the performance of incrementally funded CLINs/SLINs from the costs of performance of fully funded CLINs/SLINs.

5252.237-9106 Substitution of Personnel (Sep 1990)

(a) The Contractor agrees that a partial basis for award of this contract is the list of key personnel proposed. Accordingly, the Contractor agrees to assign to this contract those key persons whose resumes were submitted with the proposal necessary to fulfill the requirements of the contract. No substitution shall be made without prior notification to and concurrence of the Contracting Officer in accordance with this requirement. (b) All proposed substitutes shall have qualifications equal to or higher than the qualifications of the person to be replaced. The Contracting Officer shall be notified in writing of any proposed substitution at least forty-five (45) days*, or ninety (90) days* if a security clearance is to be obtained, in advance of the proposed substitution. Such notification shall include: (1) an explanation of the circumstances necessitating the substitution; (2) a complete resume of the proposed substitute; and (3) any other information requested by the Contracting Officer to enable him/her to judge whether or not the Contractor is maintaining the same high quality of personnel that provided the partial basis for award.

** Under extenuating circumstances, such as medical emergencies or job termination, the forty-five (45) or ninety (90) day notice may be waived. However, the Contracting Officer shall be notified in writing of any proposed substitution as soon as the Contractor is aware of the extenuating circumstance.*

SEA 5252.242-9115 TECHNICAL INSTRUCTIONS (APR 1999)

(a) Performance of the work hereunder shall be subject to written technical instructions issued electronically by the Contract Specialist on behalf of the Contracting Officer. As used herein, technical instructions are defined to include the following:

(1) Directions to the Contractor which suggest pursuit of certain lines of inquiry, shift work emphasis, fill in details or otherwise serve to accomplish the contractual SOW.

(2) Guidelines to the Contractor which assist in the interpretation of drawings, specifications or technical portions of work description.

----------------------------------	---	----------------------------------	--------------------	-------

(b) Technical instructions must be within the general scope of work stated in the order. Technical instructions may not be used to:

- (1) assign additional work under the order;
- (2) direct a change as defined in the "CHANGES" clause of the basic contract;
- (3) increase or decrease the estimated order amount (including fee), as applicable, the level of effort, or the time required for task order performance; or
- (4) change any of the terms, conditions or specifications of the order.

(c) If, in the opinion of the Contractor, any technical instruction calls for effort outside the scope of the order or is inconsistent with this requirement, the Contractor shall notify the Contracting Officer in writing within ten (10) working days after the receipt of any such instruction. The Contractor shall not proceed with the work affected by the technical instruction unless and until the Contractor is notified by the Contracting Officer that the technical instruction is within the scope of this order.

(d) Nothing in the foregoing paragraph shall be construed to excuse the Contractor from performing that portion of the contractual work statement which is not affected by the disputed technical instruction.

Class Deviation- 2012-O0015, System for Award Management (SAM). This clause deviation is effective on Aug 21, 2012, and remains in effect until rescinded.

52.204-99 -- System for Award Management Registration (DEVIATION)

Except for awards where the Governmentwide purchase card (GPC) is used as the method of payment, contracting officers shall include the attached clause 52.204-99, System for Award Management Registration, in lieu of FAR clause 52.204-7, Central Contractor Registration, and DF ARS 252.204-7004, Alternate A, Central Contractor Registration.

System for Award Management Registration (August 2012) (DEVIATION)

(a) *Definitions.* As used in this clause-

"Central Contractor Registration (CCR) database" means the retired primary Government repository for Contractor information required for the conduct of business with the Government.

"Commercial and Government Entity (CAGE) code" means-

(1) A code assigned by the Defense Logistics Agency (DLA) Logistics Information Service to identify a commercial or Government entity; or

(2) A code assigned by a member of the North Atlantic Treaty Organization that DLA records and maintains in the CAGE master file. This type of code is known as an "NCAGE code."

"Data Universal Numbering System (DUNS) number" means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities.

"Data Universal Numbering System+4 (DUNS+4) number" means the DUNS number means the number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional SAM records for identifying alternative Electronic Funds Transfer (EFT) accounts (see the FAR at Subpart 32.11) for the same concern.

----------------------------------	---	----------------------------------	--------------------	-------

"Registered in the **SAM** database" means that-

(1) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the **SAM** database;

(2) The Contractor's CAGE code is in the **SAM** database; and

(3) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS), and has marked the record "Active". The Contractor will be required to provide consent for TIN Attachment, Page 1 of 4 validation to the Government as a part of the **SAM** registration process.

"System for Award Management (**SAM**)" means the primary Government repository for prospective federal awardee information and the centralized Government system for certain contracting, grants, and other assistance related processes. It includes-

(1) Data collected from prospective federal awardees required for the conduct of business with the Government;

(2) Prospective contractor submitted annual representations and certifications in accordance with FAR Subpart 4.12; and

(3) The list of all parties suspended, proposed for debarment, debarred, declared ineligible, or excluded or disqualified under the nonprocurement common rule by agencies, Government corporations, or by the Government Accountability Office.

(b)

(1) The Contractor shall be registered in the **SAM** database prior to submitting an invoice and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

(2) The **SAM** registration shall be for the same name and address identified on the contract, with its associated CAGE code and DUNS or DUNS+4.

(3) If indicated by the Government during performance, registration in an alternate system may be required in lieu of **SAM**.

(c) If the Contractor does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) A contractor may obtain a DUNS number-

(i) Via the internet at <http://fedgov.dnb.com/webform> or if the contractor does not have internet access, it may call Dun and Bradstreet at 1-866-705-5711 if located within the United States; or

(ii) If located outside the United States, by contacting the local Dun and Bradstreet office. The

----------------------------------	---	----------------------------------	--------------------	-------

contractor should indicate that it is a contractor for a U.S. Government contract when contacting the local Dun and Bradstreet office.

(2) The Contractor should be prepared to provide the following information:

(i) Company legal business name.

(ii) Tradestyle, doing business, or other name by which your entity is commonly recognized.

(iii) Company physical street address, city, state and Zip Code.

(iv) Company mailing address, city, state and Zip Code (if separate from physical).

(v) Company telephone number.

(vi) Date the company was started.

(vii) Number of employees at your location.

(viii) Chief executive officer/key manager.

(ix) Line of business (industry).

(x) Company Headquarters name and address (reporting relationship within your entity).

(d) Reserved.

(e) Processing time for registration in **SAM**, which normally takes five business days, should be taken into consideration when registering. Contractors who are not already registered should consider applying for registration at least two weeks prior to invoicing.

(f) The Contractor is responsible for the accuracy and completeness of the data within the **SAM** database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the **SAM** database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the **SAM** database to ensure it is current, accurate and complete. Updating information in the **SAM** does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(g)

(1)

(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the Contractor shall provide the responsible Contracting Officer sufficient documentation to support the legally changed name with a minimum of one

business day's written notification of its intention to-

(A) Change the name in the SAM database;

(B) Comply with the requirements of subpart 42.12 of the FAR; and

(C) Agree in writing to the timeline and procedures specified by the responsible Contracting Officer.

(ii) If the Contractor fails to comply with the requirements of paragraph (g) (1) (i) of this clause, or fails to perform the agreement at paragraph (g) (1) (i) (C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the **SAM** information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the **SAM** record to reflect an assignee for the purpose of assignment of claims (see FAR Subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the **SAM** database. Information provided to the Contractor's **SAM** record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(h) Contractors may obtain information on registration and annual confirmation requirements via the **SAM** accessed through <https://www.acquisition.gov> or by calling 866-606-8220, or 334-206-7828 for international calls.
